

LED panel light

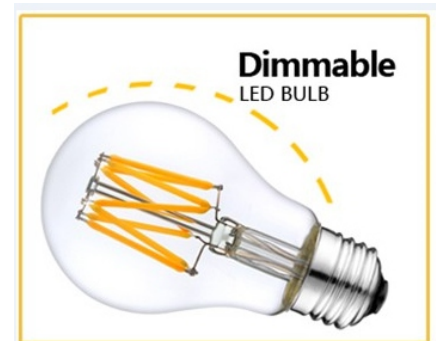

Product description

- 100% Brand New and High Quality.
- LED technology adopted, Stable performance, Low consumption.
- Ultra bright, with lighting angle of 360 °
- The real green products: soft light; spotlight, no UV and IR radiation; does not contain lead, mercury and other pollution elements.
- Long service life, ensure the normal use of more than 50,000 hours, three to four times as long as normal halogen lamps.
- Perfect for home,,office, store, super market,bars, cafe, exhibition,halls, museum hotel, restaurant, decoration lighting and other lighting.

Specification

Filament led bulb	
Model	C35, G45,S14,A60,ST64,G80,G95,G125,T30,G45
Wattage	2W,4W,6W,8W
Voltage	AC85-265V
Luminous efficiency	90-120lm/W
PF	0.9
Ra	> 80
Socket	E14/E27/B22
Size	C35, G45,S14,A60,ST64,G80,G95,G125,T30,G45
Replace the incandescent lamp	2W replace 20w 4W replace 40w 6W replace 60w 8W replace 80w
Dimmable	Can choose
Drive power supply	Wide voltage constant current
Filament material	Ceramic substrate
Color Temperature(CCT)	2200K 2700K 4000K 6000K
Lifetime	> 50000hrs
Certifications	CE,RHOS

can choose:
DIMMABLE (thyristor), noDIMMABLE
E12 E14, E26, E27 socket
Brown and transparent cover

New design

- A new generation of bright integrated LED filament, 360 degrees all-round light, high brightness, good heat dissipation
- Glass shade, higher transmittance, light color uniform, protect the eyes
- Full voltage IC constant current drive, safe and reliable

Details
